

Virtual Earth Day Discussion Questions

Use these discussion questions with your classroom after students do one of these activities.

Grades K-3 Learning about plants: Nature self-portrait

- What are some of the plants that grow in your backyard?
- What are some of the animals that live around your house and neighborhood?
- How can we help take care of the earth?

Grades 4-6 Reducing waste: Making a reusable bag out of a t-shirt

- Where does our trash go when we throw it away?
- What are other things in your home that you can reuse and turn into new projects?
- How can we help reduce trash in our homes, schools and community?

Grades 7-12 Saving energy: Making your home more energy efficient

- What are ways that you can reduce energy use in your home today?
- What are other ways you can reduce energy use?
- What are some ways your community, state or businesses you go to are reducing energy waste?
- How else can our communities cut down on energy use?
